

PROGRESSIVE TECHNOLOGY PROJECT

# Sending a Mass Email

1. Narrow your audience
2. Create a Good Email
3. Test & Send
4. Clean list & repeat

- Make a group – don't send to EVERYONE
- “Do Not Email” & unsubscribers auto-excluded
- Click “Remove duplicate emails?”

- What's the difference between “do not email” and ‘unsubscribe’?
  - Do Not Email = data entered by YOU
  - Unsubscribe = recipient opts out from email

- Unsubscribe from a group vs unsubscribe from ALL emails?
  - Unsubscribe from a group: {action.unsubscribeURL}
  - Unsubscribe from everything: {action.optOutUrl}

- Create message
  - Add images
  - Create templates
  - Ckeditor tips
  - Tokens
  - Footer/header
  - Attachments

- Include the essentials
  - physical address (which is a token known as {domain.address})
  - bulk opt out token
  - (optional but important) opt out of just this mailing list

- Send test message to yourself (& other staff)
  - Check the following:
    - Links – working?
    - Header/footer – contain correct links
    - Tokens – correct values? Are you confident you have that field filled in for all recipients?
    - Layout – looks like you expect?
    - Images – showing up?
    - Forward to a friend link included

- Schedule/send immediately
  - What this really means

- Report
  - How many clicks/opens? (why opens isn't accurate)
  - Surprising number of bounces/unsubscribes?

## Review mailing report

### Delivery Summary

Intended Recipients	6203	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Successful Deliveries	4096 (66.03%)	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Tracked Opens	686	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Click-throughs	149	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Forwards	0	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Replies	0	<a href="#">Report</a>	<a href="#">Advanced Search</a>
Bounces	2109 (34.00%)	<a href="#">Report</a>	<a href="#">Advanced Search</a>

## New Mailing

√1. Select Recipients

»2. Track and Respond

3. Mailing Content

4. Test

5. Schedule or Send

### Track and Respond (step 2 of 5)

These settings control tracking and responses to recipient actions. The number of recipients selected to receive this mailing is shown in the box to the right. If this count doesn't match your expectations, click **Previous** to review your selection(s).

#### Tracking

Total Recipients: **90**

Track Click-throughs?  Track the number of times recipients click each link in this mailing. NOTE: When this feature is enabled, all links in the message body will be automatically re-written to route through your CiviCRM server prior to redirecting to the target page.

Track Opens?  Track the number of times recipients open this mailing in their email software.

#### Responding

Track Replies?  Recipients' replies are sent to a CiviMail specific address instead of the sender's address so they can be stored within CiviCRM.

Forward Replies?  If a recipient replies to this mailing, forward the reply to the FROM Email address specified for the mailing.

Auto-respond to Replies?  **Auto-responder** If a recipient replies to this mailing, send an automated reply using the selected message.

[Forward to a Friend](#)

{contact.first\_name},

We're writing to let you know about a danger to our community. As you may have heard, Boston University is trying to build a biolab for testing anthrax and other deadly substances in the middle of our neighborhood.

We've had a meeting with Councilmember Brown to discuss this, and we're holding a rally to protest the construction of this facility near our schools, our playgrounds, and our houses.

Header / Footer

Mailing Header

You may choose to include a pre-configured Header block above your message.

Mailing Footer

You may choose to include a pre-configured Footer block below your message. This is a good place to include the required unsubscribe, opt-out and postal address tokens.
