

Your Organizational Data Worksheet

This worksheet is a tool to help you take a snapshot of the data you collect and track for your organizing, communications, and fundraising work. Over time, your answers may change – this can be used as a living document that you update as your organizing work changes and you move towards better data practices.

We chose the language in the questions carefully. Even so, it might not match the language you use in your work. Change it as appropriate to match the language you use in your organizing work.

For each of these questions, be as specific and detailed as possible.

<i>(</i>)	ran	nı	71	\mathbf{n}
