SEARCH

Just Use Search Kit!

The screenshot shows a search configuration interface. On the left, there is a sidebar with a search box labeled "Untitled Search" and a "TAGS" dropdown. Below the sidebar, there are buttons for "Compose Search" and "+ ADD...". The main area contains a "Search for" dropdown set to "Contacts", a "With (optional)" dropdown, and a "+ Entity" dropdown. Below these are a "+ Group By" dropdown and a "Field Transformations" section. At the bottom, there is a "Query Info" section, a "SEARCH" button, and an "ACTION" dropdown. A "Contact ID" tag is visible at the bottom right. A large red "Huh?" watermark is overlaid on the right side of the interface.
